why Barracuda rib

Vision
Mission
Values

Barracuda, is a rib boat manufacturing company, which, during the years created new standards in the construction of inflatable boats and various other inflatable polyester products with high standards. Our boats are mostly used for defense and security purposes (military) and also for recreational purposes (private clients).
Barracuda was originally established in France in 1985 by Anastasios Chatzistamatiou.
An important step in Barracuda's history was the headquarter's transfer to Athens - Greece, in the year of 1992 in its own premises.

- To be a world class shipping yard in terms of quality and design
- To be valued for suppliers and customers by working together
- To be pioneers on delivering continuous product enhancements
- To be first in quality but also to preserve quality
- Always to serve the values

"quality consistency reliability"

Who we are

Our boats

Barracuda builds its boats from beginning to end.
Each **Barracuda** rib is hand made, built from high quality materials.
The hulls are built to the **highest specifications** using only top quality materials and finished to exacting standards.
Tubes are **hand built by craftsmen** in a controlled environment and to the same exceptional standards as the hulls.

Main features

Can sail even with the 50% of the air tubes deflated

Life limit 25 years only by replacing the motor engine

Re complete air in the tubes not before 6 years

Epoxy fuel tank with anti-explosive protection

Provide extraordinary navigation thanks to an extra deep V hull

Minimum of maintenance
